

One-Stop Award

The 2008 One-Stop Award winners in 2008 combined the efforts of the Long Beach Workforce Services Office and the Pacific Gateway Workforce Investment Network. Together they became a Learning Lab in a One-Stop Center. This pattern for one-stops has resulted in a new local workforce system and allows the clients to be more employable and to retain their employment by receiving more current skills. This group continued to be the model for new ways of providing universal access to all clients. IAWP is pleased to congratulate the Long Beach Career Transition Center, California as our **2008 One-Stop Award** winner.
